School Visits

Are you organising a career fair at your school or looking to run a face-to-face careers workshop for your students?

Our events team working in collaboration with healthcare student ambassadors can visit your school in person to answer questions from your students at a careers fair stand or to run a dedicated interactive workshop for students looking to study medicine, nursing or pharmacy.

Workshop topics:

- **Should I become a doctor/nurse/pharmacist/healthcare professional?:** An insight into entry requirements, a day-in-the-life of an undergraduate student in the relevant subject and information on career options on graduation
- **UCAS application workshop:** A detailed look at UCAS applications, including tips for completing your personal statement
- **Interview workshop:** Lots of tips and advice for students with upcoming interviews

To request an in-person visit to your school, please contact ruth.pollock@nhs.net
