

LINCOLNSHIRE  
TRAINING HUB  
Primary Care Education

**Lincolnshire One Workforce**  
Health and Care Collaborative  
#GrowingOurFuture

## Are you applying to study a healthcare subject at University?

Lincolnshire Training Hub Future Healthcare Mentoring Programme works with the Brightside Mentoring Platform. We will match you with a mentor who is a student studying Medicine, Pharmacy, Paramedic Science, Nursing or another healthcare subject.

### How does the mentor programme work?

- We give you mentors to help you think about and work towards your future goals
- All communication takes place online so you can access mentoring from anywhere and contact your mentor at anytime

### Having a mentor benefits you if you:

- Want 1:1, personalised support and advice to help build your confidence
- Would like personalised support writing your application for university
- Are curious about student life, student finance and next steps after applications

### How do I sign up?

If you are in Year 12 or Year 13 and live, or are studying in Lincolnshire, please complete an application form on our website:

[www.lincolnshiretraininghub.nhs.uk/training-and-events/futures-programme/](http://www.lincolnshiretraininghub.nhs.uk/training-and-events/futures-programme/)

and return it to: [ruth.pollock@nhs.net](mailto:ruth.pollock@nhs.net).

## Feedback for the Brightside Mentor Programme:

- "I think this experience helped me a lot with my decisions and I am glad I had the chance to ask all my questions about University. My mentor was really lovely and very understanding."
- "My mentor was well matched to me as she is in uni and is studying a science subject. She also replied regularly and was a good help overall."
- "My university student mentor understood me, she didn't go on and judge me and I'm thankful for that. She gave me a range of options to look into which I'd never even thought about nor considered. She opened up my options to my future...I will now look at the further options that she opened up for me. Thank you for pairing me up with her, she was amazing!"
