More About Lincolnshire Training Hub (LTH)

What is the Lincolnshire Training Hub?

LTH was formed following an initiative from Health Education England (now NHS England) to improve recruitment and retention of the primary care workforce.

We work and liaise with GP surgeries across Lincolnshire, Lincolnshire ICB, the Lincolnshire ICS and LMC, universities across the East Midlands and NHS England to promote primary care as a first-choice career destination.

What do LTH do?

- Locate multi-professional student placements in primary care.
- Assist those seeking employment in primary care
- Help to develop the primary care workforce
- Lead initiatives in primary care across Lincolnshire
- Source high quality training and funding to support the workforce
- Represent the primary care workforce at a local and national level
